Project Description

Principal's Priority

2

Mobile Learning Lab with 30 computers. This will help our school meet its technology goals. We are incorporating 3 computer based programs that will help our students, and the mobile learning lab will help with our goals.

Benefits if Project is Funded

If this technology is utilized within a classroom, it will provide more and varied distributed practice for all individuals. The more options for individual students to practice their standards based skills results in narrowed learning gaps. Our classroom are filled with individuals who are learning on their own continuum, in order to provide support to all. We, as staff must have varied resources and technology can provide that.

Impacts if Project is not Funded

of Students impacted by project 380

Project Start Year 2010
Project Finish Year 2010

Project has matching funds are available
Project has prior state funding available
Project has federal funding available
